PRICE LIST

Effective date: February 12, 2024

Unless otherwise specified, prices shown do NOT include applicable HST.

The following format and content of the price list has been stipulated by the Bereavement Authority of Ontario and is required to be posted by all bereavement licensees.

MINIMUM SERVICES

The Minimum Services charge represents the minimum non-declinable services required to facilitate the disposition of a deceased person, whether by cremation, burial, or hydrolysis (also known as “aquamation”).

This minimum service charge is applicable to every family we serve and includes transferring the deceased from a local hospital, located within the GTA (Greater Toronto Area) to our holding room, where the deceased will be placed in a casket* of your choosing and securely held until the necessary documentation is completed for burial, cremation or hydrolysis, as applicable. Once the required documentation is ready (i.e., death has been registered and if applicable, the coroner’s certificate for cremation / hydrolysis has been obtained), the deceased is transported in a service van to the cemetery, crematorium, or hydrolysis facility at the earliest practicable opportunity or at a scheduled time, as applicable.

Additional fees may apply for mileage beyond 20 km, differing locations from a hospital of the place of

death, transfers carried out between the hours of 5:30 p.m. to 9:00 a.m., pacemaker/radioactive implant removal and pallbearers (burial only).

ITEMIZED PACKAGE COSTS

Interment fee charged by the cemetery to open and close the gravePrice varies by cemetery.

Death registration fee charged by the local municipality:..... \$55.00
(charged in all cases where the death occurs in Ontario)

ADDITIONAL SERVICE OPTIONS

We offer the following additional services, which are optional:

Additional body preparation services

It is our policy that human remains be identified whenever possible. The identification may be made by anyone who knew the deceased, including a relative, friend, neighbour, co-worker, or clergy person and done in person, online or by photo. Identification of a body is possible with the minimum required preparation, you may wish to consider opting for "basic preparation of remains," as it might afford a more peaceful final viewing experience. One of our funeral directors will be able to guide you on preparation options and make recommendations based on the condition of the body.

Transportation services to and from a location of a family-led visitation and/or funeral service

Although a Transfer Service Operator – Class 1 is prohibited by law from arranging, conducting or participating in a visitation, or funeral service at which human remains are present, it may offer transportation services to and from a location of a visitation or service that is led by the family. You may elect to engage the services of our parent company, G.H. Hogle Funeral Home Limited, a Class 1 Funeral Establishment, to assist.

DESCRIPTION OF SERVICES AND FEES

Media Notices

Varies

These are charges for death notices in newspapers, radio stations or other media outlets. Death notices listed on our website are provided to families free of charge

CASKETS

The following caskets listed are those generally available. Additional options are available upon request. Unless otherwise noted, all caskets listed are standard adult size.

Minimum requirements for a casket:

For burial: The least expensive wood casket is suitable and is required by most cemeteries' by-laws for interment, in the interest of the health and safety of the workers involved in the interment process. A metal casket may also be used for burial. A growing number of cemeteries in Ontario offer "green" burials, which may consist of interment of a body without a casket. Since there is no legal definition for a "green" burial, it varies from one cemetery to another. For more information, please speak with one of our licensees or visit www.greenburialcanada.ca.

For cremation: A body must be presented to the crematorium in a rigid, leak-proof casket that is made of a combustible material, such as wood or cardboard. Caskets containing non-flammable, hazardous material or chlorinated or fibre-reinforced plastic, other than incidental metal, cannot be used for cremation. We offer a selection of inexpensive caskets below that are suitable for cremation.

The following caskets are suitable for cremation:

VAULTS & GRAVE LINERS

Outer burial containers listed below are for standard adult size caskets. Oversize vaults are available to accommodate plus-size caskets. Price includes grave set up and lowering device.

You do not have to purchase a vault unless the Medical Officer of Health has made the use of vaults and grave liners mandatory in the entire cemetery. A cemetery operator may designate a specific area in the cemetery where vaults or grave liners are required; however, the operator must have another area where vaults or grave liners are not required, so that consumers have a choice. A vault or grave liner may be recommended when there are environmental conditions such as poor drainage, or for practical or aesthetic reasons.

PAYMENT, FINANCING & FUNDING

For services at time of death:

Payment is due 5 days of signing the contract, or before delivery of the decedent to the crematorium or hydrolysis provider, whichever comes first. Interest will be charged at a rate of 2%, which is equivalent to 24% per annum (APR). Payment may be made by cash, cheque, debit, and most major credit carriers.

Financial assistance for burial and cremation / hydrolysis services is available through various governmental agencies, to those who qualify. Our directors would be glad to explain or look into these benefits for you.

Pre-payment in advance of need:

For services that are being arranged pre-need, we offer the following funding options when prepaying services or supplies:

Trust: You pay for the services and supplies at today's price, and we will place your money in a trust account, where it will accrue interest until the prepaid contract is fulfilled (when the services and supplies are delivered). Pre-payment can be made by cash, cheque or credit. Funds are held in the purchaser's name. Time payment plans may be made by credit card or pre-authorized chequing

Minimum payment amounts may be requested and may vary depending on services requested.

Guarantee: When paid in full in accordance with the payment terms set out in the prepaid contract, the prepaid contract is guaranteed. The total payment(s) made plus interest / growth earned will be applied to the future price of the services and supplies. If the total payment(s) plus interest / growth earned are insufficient to cover the total future price of the prepaid services and supplies, we will absorb the difference as a loss. Any funds in excess of the total future price of the prepaid services and supplies will be returned or applied toward additional services, supplies and disbursements purchased at the time of need, as applicable. Conditions apply. Any changes to the prepaid contract may result in the prepaid contract being null and void and a new contract being executed with current pricing at the time changes are made.

Additional information about payment, financing and funding options is available upon request.
